# KEY FEATURES OF EUROPEAN KITCHEN CABINETS!

**Sleek Design:** European cabinets are renowned for their sleek and modern design, adding a touch of elegance to any kitchen space. The absence of visible hardware and decorative elements creates a minimalist look that exudes sophistication.

**Innovative Storage Solutions:** One of the hallmarks of European kitchen cabinets is their focus on efficient storage solutions. From pull-out drawers and organizers to built-in pantry systems, these cabinets maximize space utilization and enhance functionality, making it easier to organize and access kitchen essentials.

**High-Quality Materials:** European cabinets are crafted from premium materials known for their durability and longevity. Whether it's solid wood, engineered wood, or high-grade laminate, these cabinets are built to withstand daily wear and tear while maintaining their aesthetic appeal.

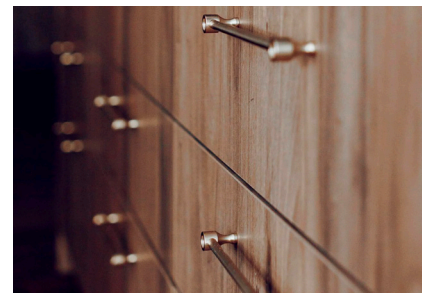

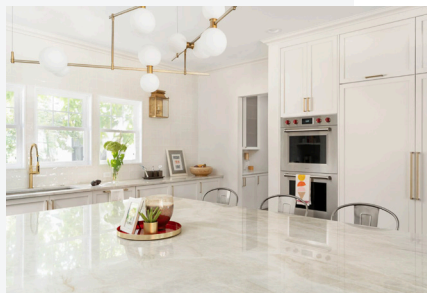

**Customization Options:** With European kitchen cabinets, customization is key. Homeowners can choose from a wide range of finishes, colors, and hardware options to tailor the cabinets to their specific tastes and preferences. Whether you prefer a glossy finish or a matte look, European cabinets offer endless customization possibilities.

# THE **FINAL** WORD...

European kitchen cabinets offer a perfect blend of style, functionality, and craftsmanship, making them a popular choice for modern kitchens. With their sleek design, innovative features, and customizable options, European cabinets can transform any kitchen space into a stylish and functional culinary haven.

**Whether you're renovating your kitchen or building a new home, consider incorporating European kitchen cabinets for a touch of elegance and sophistication.**

# WHAT IS A BATHROOM REMODEL?

A bathroom remodel typically involves making significant changes to the structure, layout, fixtures, and finishes of the bathroom. It's more extensive and involves creating a new design or layout for the space.

- ✓ **Structural Changes:** This may involve altering the layout, moving walls, or expanding the bathroom's footprint.
- ✓ **Fixture Replacement:** Upgrading or replacing fixtures such as sinks, toilets, showers, bathtubs, and faucets.
- ✓ **Flooring Replacement:** Installing new flooring materials such as tile, vinyl, laminate, or hardwood.
- ✓ **Cabinetry and Countertops:** Installing new cabinetry, countertops, and storage solutions.
- ✓ **Plumbing and Electrical Work:** Updating or relocating plumbing and electrical systems to accommodate the new design.
- ✓ **Finishes and Accessories:** Adding finishing touches such as paint, trim, lighting fixtures, mirrors, and accessories.

# CONSIDERATIONS FOR A BATHROOM REMODEL

**Structural Issues:** Does your bathroom have structural problems such as water damage, mold, or outdated plumbing/electrical systems that require significant changes to the layout or footprint?

**Outdated Design:** Is your bathroom's design outdated, and are you looking to completely change the layout, fixtures, and finishes to achieve a more modern and functional space?

**Functionality Needs:** Do you require additional space, better storage solutions, or upgraded fixtures (such as a larger shower or a double vanity) to better meet your family's needs?

**Budget:** Are you willing to invest more money and time into your bathroom renovation to achieve a more dramatic transformation and potentially increase your home's resale value?

## HOW MUCH DOES A BATHROOM REMODEL COST?

The cost of a bathroom remodel can vary widely depending on factors such as the size of the bathroom, the quality of materials chosen, and the extent of renovations. On average, a bathroom remodel can cost anywhere from \$10,000 to \$30,000 or more, with high-end remodels exceeding \$50,000.

# WHO IS **KRAMMER** BUILT?

From a young age Martin Krammer grew up around building! Working alongside both his late father and older brother, both qualified builders, Martin followed his passion into building one of a kind, unique and in trend homes to sell in Australia after completion. Whilst building homes Martin was contracted to supervise and construct infrastructure for the largest mine sites throughout Australia.

Whilst building a home in Brisbane he met his now wife Jordan whilst she was on a working holiday from Central Point.

---

**After deciding to make the move to US in 2019 and live in the Rogue Valley, they have started up Krammer Built and now 5 years in Krammer Cabinets Showroom + Design Center.**
